Student, Norwegian School of Management, Bergen, Fall term, 2011:

Today we got our grades in SPÅ 2901. I got an A on my exam, and I wanted to thank you for making this course so interesting. I had a lot of fun taking the course, and I find myself using the things I have learned every day! For example, when I watch a movie, I often say to my friends, "The reason that man is reacting that way may be because he is Chinese, and the culture in China is different than ours." I think this shows that the course is not only useful in relation to our future jobs, but also in our private life, when travelling and when meeting people from other cultures. This course definitely gave me a lot of new knowledge, and was probably one of the most useful classes I have taken at BI. Thank you for all your help, and a happy new year to you!"
