

Edvenson Consulting

Rates for Service - Effective January, 2026

- **Administrative Time (if effectively separable)*** **1200 NOK/ hour**
- **U.S. Tax Advising, Return Preparation, Amending** **2500 NOK/ hour**
- **Law-Related Consulting**
 - Non-Representation & General Assistance/Referrals 1000 NOK/ hour
 - Note: I am no longer representing clients personally in legal cases. I remain an actively licensed American attorney – and do U.S. tax return work in that capacity.
- **Costs billed through:** E-registration of tax returns – any e-filed return: 120 NOK/each
 - Copies 5 NOK/page copied or outside printer's billed cost
 - Travel 5.0 NOK/km plus tolls / reimbursement cost
 - Rush Fee 500 NOK per rush (overnight & weekend work unless excused)

- An **initial e-mail reply** is free (one).

- For an initial phone consultation, plan to provide your billable name and address as well as the specific nature of the inquiry before a phone appointment is made.

- **When does billing begin?** After information is received from the individual to do the work, time is tallied. (Good, clear information helps reduce billed time.)
- **When does payment occur?** Most work is done first and then billed for payment within 30 days of completion. I bill monthly. (Some work can require the payment of a retainer fee before work can begin. A retainer is charged at my discretion, usually not for tax work.)
- **Tax work notes:** When a tax client sends their information documents to me, this is recognized as a request to provide the tax related services, and (only) the necessary work will be done and billed: Billing time begins when information is received. I can give a general estimate of cost if requested - once I see the information, but I don't give 'fast /set price quotes': my work is done based on the time used/needed. (If I refer someone, I do not bill my time on that.)
- **My tax work hourly rate** is not adjusted every year, but with increased inflation and the general price for this service in the industry, it is fair I raise my rates since 2 years ago. I am now adjusting it to about average for this type of work, using either U.S. or Norwegian preparer standards, and since I do the work based on time, my bills may often be lower than other preparers who bill based on forms used.
- **Scope of work:** I normally know what work is required and must do the work based on that knowledge. If I am in doubt as to whether you need additional forms I do not do (ex: in-state or company forms), I will refer your work out or suggest you find an accountant preparer.
- I maintain professional client records which are clear and specific.

This notice of new rates for service is posted on Dec. 24, 2025.

Welcome to my services!
